Needs Assessment

Figuring out what our students need

22

22

Needs Assessment Process

- Goes beyond collecting the data to complete this form
- Includes conversations with:
 - the student about the student's interests, what they want to learn, what they want help with, when they are available; and with
 - other stakeholders, depending on the student's age and situation, such as parent(s) or guardian(s), classroom teacher, ENL teacher, and/or guidance counselor for their input as to a student's interests, needs, and schedule.
- Migrant Educators, Data Specialists, and Program Directors work together, using the Academic Service Intensity Rubric (ASIR), to
 - Identify the Priority for Service (PFS) students, and
 - Identify each student's Service Intensity Level

23

23

Important!

- Completing this needs assessment form **is not considered a service**, but the time spent in conversation with students and the other stakeholders during the needs assessment process constitutes the Support Service known as Advocacy and should be recorded.
- The information received will generate follow up instructional and/or support services.
- **Note:** If the needs assessment conversation is combined with a different service, such as a Life Skill activity, then that is recorded separately.
