Students Taking the Prof Mth Virtually Through the easyCBM Website

13

14

This is an example of a question on the Proficient Math assessment. Please note on the top you can choose English or Spanish. The computer will read the question to you (in English or Spanish) or you can choose to read the questions for Proficient Math only to the student.

The student can tell you the answer. The Migrant Educator will need to click the circle that the student chooses. The Migrant Educator can check with student to ask "is that your final answer?" and asks the student to repeat their final answer. When taking this exam on-line you can exit out and start again where you left off.

This exam scores itself as you go along, and you will NOT need to enter the score.
